

MAIL BOXES ETC.®
#PeoplePossible

Which MBE Mailbox is right for you?

Secure, flexible & affordable Private Mailboxes.

You no longer need to worry about mail & identity theft.

Your mail is safe, secure (& dry) and available 24/7!

We can collect and forward your mail, meaning you are free to work, study or roam anywhere you please!

The main benefit of an MBE Mailbox service is that we also accept parcels from Couriers, unlike a PO Box where parcels are not accepted.

Your mail and packages from anywhere can be received, held or forwarded, making courier deliveries easy. We will notify you electronically as soon as your item arrives.

Flexible options for Businesses & Individuals.

Staff working remotely?

We can combine our Physical Mailbox with our Digital Mailbox service so that all your company correspondence & deliveries come to a single address and is automatically allocated or forwarded to the correct department or employee... no matter where they are today, tomorrow or next week!

Are you a student living away from home, or retired and travelling for extended periods?

Ensure your mail and parcels remain safe, secure and accessible wherever you are by signing up for one of our Physical and/or Digital Mailbox options, leaving you to study or travel with the piece of mind, knowing your mail is being well looked after.
